INTRODUCTION

About us

Welcome to Sandalo Organic Estates, the US branch of GRUPO SÁNDALO, a family-owned company with over 700 acres of privately owned vineyards and three wineries, as well as sourcing from local organic farmers from multiple regions.

Our US branch was co-founded by the Fernández family and Paul Clear, a wine industry veteran, with a mission to import wines from around the world. Sandalo Organic Estates works closely with artisan producers from Spain, France, Greece, and South Africa, all sharing a passion for wine and its story.

Our portfolio offers a wine for every taste, specializing in organic and biodynamic wines of unique character and tremendous value.

Our dedication to quality and passion has led us to expand our brands to 40 states and counting. Our team is constantly seeking out wines of passion and quality to bring them to you, and we hope that you will taste the passion in every sip.

SUSTAINABILITY

Committed to a better, more sustainable wine industry

At Sandalo Organic Estates we have been adopting positive practices for the environment for more than a decade, specializing our portfolio in organic wine-making. These practices have increased over time, and we are proud to share all the steps we are taking for a greener future.

Sandalo Organic Estates is an organic, vegan and biodynamic wine importer. These are our three main ways to contribute to a more sustainable future:

- **Organic producers:** Our partner wineries practice organic farming, and do not use pesticides, herbicides, synthetic fertilizers on the soil or chemicals in the winery.
- **Vegan-friendly wine and packaging:** We partner with vegan wineries who use non-animal fining products in their wines and use vegan-friendly packaging that does not include any animal-sourced components.
- **Going Carbon Neutral:** In our continued commitment to the environment, at Sandalo Organic Estates we have started our path towards a Carbon Neutrality Certification.

Going Carbon Neutral

In 2022, we recognized the importance of reducing our carbon footprint, and began measuring our CO2 emissions and developing an action plan.

We identified practices that contribute to emissions, and made changes to reduce our impact. Now, we're offsetting our remaining emissions to achieve carbon neutrality.

These are some of the steps we have been taking: using compostable cups instead of plastic at events, digitizing paperwork, using recycled paper, offsetting shipping through reforestation donations, and choosing eco-conscious transportation partners.

As part of our commitment to sustainability, we have partnered with One Tree Planted, a nonprofit that is on a mission to make it simple for anyone to help the environment by planting trees.

Our initiative is partnering with reputable non-profit organizations that align with our core values, and One Tree Planted is a perfect fit. So far for 2023, we have offset 20 tons of CO2 with One Tree Planted's reforestation projects. Through this partnership, we are not only reducing our carbon footprint, but we are also contributing to the restoration of natural habitats and the improvement of local communities' lives.

OUR WINERIES

LAS PEDROÑERAS (CUENCA, SPAIN)

Punctum Biodynamic Family Vineyards

Founded and owned by the Fernandez family. At Punctum, the estate grown grapes are turned into world class organic and biodynamic wines according to the tradition handed over for centuries in Spain and by the modern means of a sustainable agriculture and winemaking.

CASAS DE GUIJARRO (CUENCA, SPAIN)

Bodegas Albero Organic Vineyards

Family-owned winery, focused on indigenous grapes from their undiscovered region. As one of the very few wineries located in the Ribera del Júcar D.O., they have made it their mission to bring the unique wines from this region to the international spotlight.

SPAIN & FRANCE

Terra Firma Winery

These wines feel like a trip to different countries and winegrowing regions, a discovery of unique winemaking methods and diverse vineyards. They produce wine in multiple regions across Spain and France: Yecla, Bierzo, Bajo Aragón, Côtes de Gasconne and Pays D'Oc.

VALLADOLID & NAVARRA (SPAIN)

Arriezu Vineyards

Arriezu Vineyards is a young wine cellar founded with the goal of producing the best organic wine with grapes from their own vineyards. One white, from Rueda, and two reds from Rioja, but all fresh, authentic and complex like any good wine – and made with organic grapes!
